

IEEE MTT-S International Conference on Microwave Acoustics & Mechanics

April 20-22, 2026, Barcelona, Spain

Conference General Chairs
chairs.icmam@mtt.org

Jordi Verdú

Universitat Autònoma de Barcelona, Spain

Jordi Mateu

Universitat Politècnica de Catalunya, Spain

Technical Program Chairs

Carlos Collado

Universitat Politècnica de Catalunya, Spain

David Molinero

Skyworks

Conference Finance Chair
finance.icmam@mtt.org

Pedro de Paco

Universitat Autònoma de Barcelona, Spain

Europe Liaison

Amelie Hagelauer

Technical University of Munich, Germany

America Liaison

Ruochen Lu

University of Texas at Austin, USA

Asia Liaison

Ken-ya Hashimoto

University of Electronic, Science and Technology, China

Publications Chair

Holger Maune

Otto-von-Guericke-Universität Magdeburg, Germany

Sponsors

Call for Papers

The International Conference on Microwave Acoustics & Mechanics (IC-MAM) represents a unique and unprecedented opportunity to bring together researchers and practitioners of different backgrounds (materials scientists, physicists, microwave engineers and process technologists), to share the most recent advances in new materials and manufacturing processes as well as components and devices, which represent the key for the development of future RF, microwave, mm-wave and THz devices, circuits, and systems based on RF-MEMS and Acoustics. IC-MAM is organized by the IEEE Microwave Theory and Technology Society (MTT-S) and features an exciting technical program and invited talks by worldwide- recognized experts of RF-MEMS and BAW/SAW

Conference Topics

Perspective authors are cordially invited to submit papers in all areas of Microwave Acoustics and RF MEMS including but not limited to:

- Acoustic/MEMS Device Applications
- Acoustic/MEMS Device Design
- Acoustic/MEMS Device Modeling
- Materials & Propagation
- Advances in Filter and Multiplexer Technology
- SAW and BAW Sensor Devices and Applications
- Multi-Band RF Modules for Multi-Standard/-Mode Systems
- Fusion of Major Transmit and Receive Functionality in Single Modules
- Tunable & Reconfigurable Devices, like Bulk and Thin-film Components and Devices, e.g., based on Ferroelectrics, Phase-Change Materials

Submitted papers should be three to four pages in length. Authors must adhere to the format of the IEEE conference paper template. Papers submitted will be peer-reviewed and all papers presented at the conference will be included in IEEE Xplore pending quality review.

Submission deadline:	February 9, 2026
Notification of acceptance:	March 9, 2026
Final paper submission:	March 23, 2026
Conference date:	April 20 - 22, 2026
